## Providing Medtech that protects your devices, staff and patients

Supporting healthcare digitisation and infection control initiatives through the provision of robust, medical-grade protection for Apple iPads being used in clinical environments.

Our products – marketed under the Tough-PAC brand - have been serving the needs of healthcare professionals around the globe since 2012, helping protect their iPads devices, and the people using them.

**Been deploying globally since 2012**

**Thousands of active deployments across 4 continents**

**The worlds first Antimicrobial iPad Case**

The range combines a number of features and benefits that far exceed those available with standard iPad cases and other offerings.

**In built Antimicrobial:** Inhibits the growth and destroys over 99.6% harmful bacteria. Being in-built, the protect lasts longer than coatings.

**360-degree protection:** Includes a replaceable antibacterial tempered glass screen for all round protection.

**User friendly design:** Rounded edges and the 'grab and go' carry handle make the cases easy to use for busy professionals

**Easy to Clean:** Compatible with medical-grade wipes and sprays

**Robust:** Protects the device from knock and drops of up to 2 metres.

**Sealed:** sealed against fluid spills and dust with no exposed ports.

**Cable free charging:** Smart charging docks eliminates the need for separate charging cables and ensures the devices charge evenly and quickly.

**British:** Designed, made and assembled in the UK

Our cases are trusted by thousands of users around the world daily.  
Here is just a small sample of some of those enjoying the benefits.

## What our Customers say

*"We had a vision to use in-room iPads as our main patient engagement platform. These would provide children in our care entertainment, social communication and a better understanding of their care. After searching for a protective case solution, working with Tough-PAC enabled us to realise that vision."*

**Phoenix Children's Hospital**

*"We have tested all the possibilities – these covers (Tough-PAC) are the most viable solution. They have been with us for three years in operation and still not a single device has been broken"*

**Klinikum Itzehoe**

*"The Tough-PAC cases were an instant hit (with staff). They are lightweight and we have had no iPad case breakages in three years, which is exemplary. And they look like a clinical device."*

**The Walton Centre**

*"Thank again for your excellent support!"*

**PCR Bioscience**

*"Your customer service is exceptional"*

**Thermo Fisher – Pharma Services**

*"We really love the product"*

**Dream Dentistry**

## Tough-PAC in action

The range is used throughout healthcare environments, including for patient sign-in; on wards; in theatre; for patient engagement and infotainment; doctor consultations; in intensive care units and many more. Its infection control standard make it truly versatile in its application.
